FRONTEND DEVELOPER

ABOUT ME

I'm a Frontend developer with 1.5+ years of experience. I build Single Page Application using TypeScript, React, and Redux. I work with layout, animations, performance optimization, and SEO. Currently learning Next.js and GSAP, focusing on animated interfaces. You can check out my projects on GitHub.

EXPERIENCE

October, 2023 - Present

Frontend-developer, LLC "Octoweb"

Responsibilities:

- Developing web applications using React, Next.js, TypeScript, and JavaScript
- Creating responsive and interactive interfaces for various devices
- Ensuring maintainability: clean code, reusable components, Storybook docs
- Connecting frontend to backend
- Implementing SEO optimizations
- Creating and validating forms

EXAMPLES OF PROJECTS

- Multi-page website

A corporate website showcasing the services of a web studio Octoweb, featuring dynamic content and interactive elements.

Technology stack: Next.js, React, TypeScript, GSAP (ScrollTrigger), Swiper, React Hook Form, Zod, Storybook, ymap3-components.

- Flashcards

Flashcards is an intuitive learning app designed to help you memorize information efficiently and easily.

Technology stack: TypeScript, React, RTK Query, React-router-dom, SCSS, Radix, Storybook.

- Landing page

Landing page for Kaleidoscope Games design bureau. The company specializes in the development and production of unique sports equipment.

Technology stack: Next.js, React, TypeScript, SCSS, r3fiber, Swiper, use-sound, ymap3-components.
